

# Fecal Egg Count for Horses: There's an App for That!

Now commercially available! Fecals just got faster, easier, and more accurate with the tap of a button! No counting, no multiplication, and no microscope, our **2.5 minute** quantitative fecal egg count is the only system to offer an integrated fecal egg count reduction test to more easily manage horse health and identify drug resistance. Results data is available for review in our published studies in the International Journal for Parasitology and Veterinary Parasitology; validated at the UK Gluck Equine Research Center.

Complete Parasight System shown in one of our customer's lab.

- ✓ Currently in-use at major equine veterinary university programs and private clinics in the USA.
- ✓ Compatible with major PMS systems.
- ✓ Optimized for clinic lab use.
- ✓ Easy, annual subscription options.
