History of the AAEVT

Our organization started as a concept in 2002. A small group of equine technicians and assistants organized several CE events with a primary focus on equine wet labs and lectures. The idea began to gain traction and soon an AAEP Task Force and Organizing Committee were created. In 2004, the first AAEVT Annual Conference took place. Since that time, we have committed ourselves to advocate for the entire equine veterinary health care team, growing our community from 250 members to over 1,000 members worldwide.

Sponsors & Partners

Partnerships, sponsorships and support from outside organizations are instrumental in helping the AAEVT provide resources that advance our member benefits, educational opportunities, and profession. They're also key to amplifying our voice as we advocate for both veterinary professionals and our equine patients.
